

Download Briggs And Stratton Manual Oil Change

How to Change Oil | Briggs & Stratton

For optimum performance, you should change the oil in your small engine after the first five hours of use and then annually, or every 50 hours of use (whichever comes first). Use Briggs & Stratton SAE 30W Oil above 40°F (4°C) for all of our engines. Check oil level regularly. Air-cooled engines burn about an ounce of oil per cylinder, per hour.

The 3

Briggs & Stratton recommends an oil change as part of your pre-season maintenance activities in the early spring. Clean oil will help your engine to run cooler, maximizing engine protection and ...

Briggs & Stratton 4.5 HP Oil Change Instructions | Garden ...

Briggs & Stratton 4.5 HP Oil Change Instructions ... Pour in the correct amount of the approved type of oil for the engine, as specified in the owner's manual. If in doubt, use 10W-30 oil in cool climates and SAE 30 weight oil in warmer climates. Add the oil a little at a time until a check with the dipstick shows a level just below the full ...
